Subject: Response to Information Request Concerning Niagara Falls Boulevard/Holy Trinity Cemetery Sites

Ms. McCulloch,

I am writing to follow up with you on EPA's Request for Information, issued pursuant to Section 104(e) of CERCLA, concerning the Niagara Falls Boulevard ("NFB") and the Holy Trinity Cemetery ("HTC") Sites. Union Carbide Corporation submitted its response to the Information Request by letter dated May 13, 2016. In that response, Union Carbide indicated that it had reviewed 50% of the documents retrieved from its records center and scanned to a searchable database. Please indicate the status of Union Carbide's review of these scanned documents and whether Union Carbide has located additional documents responsive to the Information Request.

Should you have any questions concerning the Information Request or any other legal matters related to the NFB and HTC Sites, please do not hesitate to contact me. I received your voice message concerning the work that EPA is performing at these Sites and left you a voice message in response. Certainly, follow up with me if you continue to have questions or concerns.

Thank you,

Margo B. Ludmer
